

See Owner's Manual for complete operating instructions, including how to sync 2 Twin XLs. View set-up video here: <https://purple.com/blog/how-set-up-your-purple-smart-base>

Part List

Before discarding the packing materials ensure all the parts are accounted for. Some parts may be attached to the base or inside boxes, please inspect carefully.

Wireless Remote Control AAA Batteries ③	Mattress Retainer Bar	Legs ⑥	Power Cord	Power Supply	Battery Backup Strap	Only included with TL/CKS	
						Connecting Strap	Sync Cord

Miscellaneous Parts (not included): Surge Protector ①, 9 Volt Alkaline Batteries ②

All electronics and components that need to be installed are located in boxes under the base or attached to the frame.

STEP 1

Remove the bed base from the box keeping the bottom of the base facing upwards.

Remove the binding straps and packing materials, making sure not to puncture the box with any sharp objects.

STEP 2

Legs are shipped fully assembled. Alternative heights in 3" increments can be achieved by removing leg segments.

To install the legs, tighten by hand. **Do not over tighten.**

STEP 3

Uncoil input Power Cord (connected to Control Box's power port) and plug into Power Supply.

STEP 4

Carefully flip the base over on to its legs. Important: Two people are required to move the bed base. Do not drag across the floor. Do not rest frame on its side, excessive pressure may damage the legs.

STEP 5

Insert the Power Cord into the Power Supply.

STEP 6

Plug the Power Cord into a power outlet. **A surge protector is recommended.**

STEP 7

Place each end of the mattress retainer bar into the inserts at the foot of the base until the retainer bar is secured in place.

STEP 8

Download the app. Scan the QR code below or search in the App Store or Google Play for the Purple Smart Base app.

Setup is now complete! Quickly test remote functions to verify proper setup and return the base to a flat position before placing the mattress on top.
