

Ascent Adjustable Base Repackaging Instructions

Follow the instructions below to take apart and repackage your Ascent Adjustable Base. Just like during assembly, you will need another adult to help you with this process.

REPACKING CHECKLIST: FIRST, GATHER THE FOLLOWING

- Another adult to help
- Allen wrench (only needed to remove headboard brackets)
- Packaging tape
- Box wrenches (only for King and Cal King sizes)
- Your original box
- Return shipping label (Emailed from a return agent)
- Return merchandise authorization slip (RMA - emailed from a return agent)
- Large paper, fabric, or plastic bags to contain smaller components

REPACKING STEPS

1 Remove your mattress from the Ascent base.

- A Remove your mattress from the Ascent base.

2 Power down the base and make sure it's in a flat position.

- A Unplug the power cord from the wall.
- B Unplug the power cord from the supply box.
- C Unplug the power cord from the input cord (attached to the base).
- D Set aside.

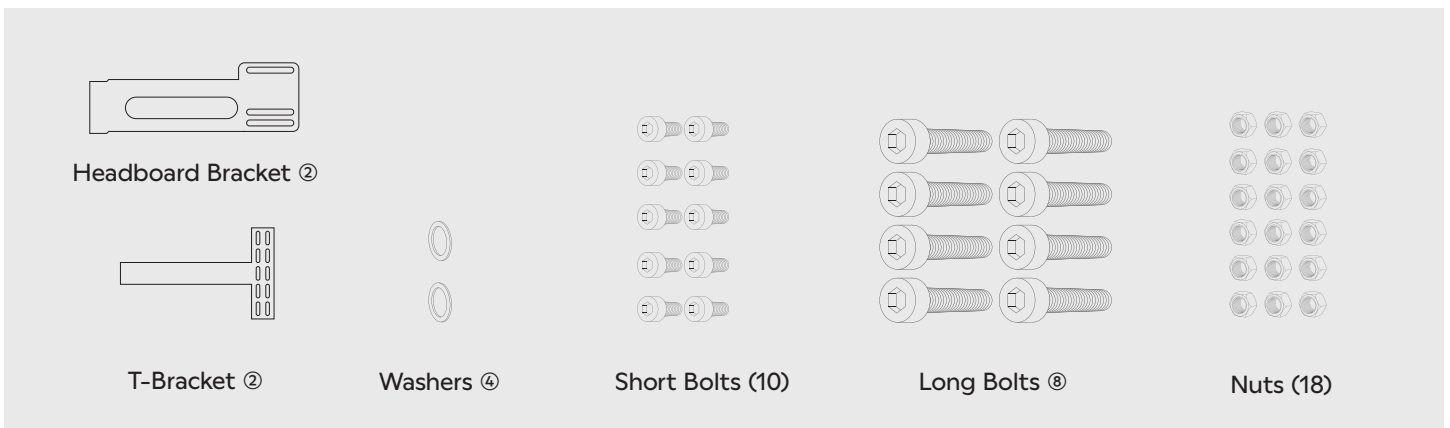

3 Remove the mattress retaining bar.

- A Lift the bar up and press it forward.
- B Pull the retaining bar up out of the holes.
- C Set aside.

4 Remove the *headboard attachments.

- A Unscrew the headboard attachments located at the top of the base.
- B Place all attachment parts into a bag:

- C Set Aside. *You will only have headboard attachments if you purchased them at checkout.

5 Remove the legs.

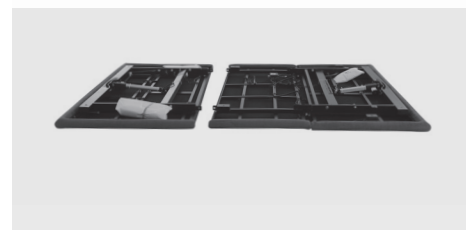

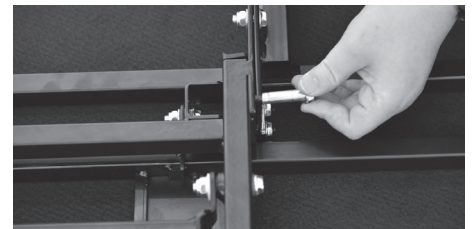

- A With another person, flip the base on its back.
- B Unscrew the legs from the base.
- C Set aside.

KING/CAL KING ASCENT BASE

- Remove the 4 bolts to disconnect the two bed sections.
Unscrew the legs from the base.
- Remove the bottom section and fold it in half.
- Place all of the accessories below in bags:
